## Tobacco Habit Dangerous

Says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug nicotine. Stop the habit now before it's too late. It's a scientific fact that nicotine is a powerful poison. It enters the system through the lungs and is carried to every part of the body. It causes the heart to beat faster, the blood to flow more rapidly, and the lungs to work harder. It is a habit that is almost impossible to break. If you are a smoker, you are taking a risk with your life. Stop now, before it's too late.

**GOES TO JAIL FOR HAVING ROOKE REGISTER**  
Revelations of the way trolley companies can be defrauded by conductors in the use of the Rooker-hand register were made in the police court Monday morning when John E. Wallace, of Fairfield, Vt., a conductor on the local lines, was before the court charged with accepting and concealing a register of the value of \$50, the property of the Eastern Massachusetts Street Railway Co. of Boston.

Wallace was defended by Attorney T. Kelley. Prosecuting Attorney Roy Robbins was assisted by Attorney Allyn L. Brown, who appeared for the Shore Line road.

The arrest of Wallace came about when the police were looking for another employee of the road who has disappeared with the Rooker register belonging to the Shore Line road. The missing man is a chum of Wallace and was at one time employed with him on the trolley road in Lowell.

Wallace claimed the money thrown him the Rooker register on Saturday and suddenly left the car.

It came out in the evidence that Wallace turned in \$25 on the Yale line after 12 hours' work on Saturday, but he told Attorney Brown he did not know the average was \$60 for a day's work. Wallace denies any wrong doing.

Mr. Edwards of Boston, an official of the Massachusetts road, identified the register in court as the property of the road.

He said the company has lost 17 Rooker registers in the past year.

Judge Barnes held Wallace for the higher court under bonds of \$300 and he was unable to get a bond.

Monday evening Mr. Edwards said that the register had been stolen on October 1st and the numbers on the indicator showed that \$126 worth of fares had been collected with it since then.

## CELLAR FIRE GIVES STUBBORN FIGHT How to Banish Piles

A bad cellar fire, cause unknown, broke out at 10 o'clock this Tuesday morning beneath the confectionery store run by Charles S. Ekroost at 323 Main street, gave the fire department a stubborn fight for over half an hour. A few minutes before 1 o'clock Charles Combes, who resides in the tenement over Lee Clegg's jewelry store, which is next door to the confectionery store, saw his rooms rapidly filling with smoke. Mrs. Combes was awakened by the smoke at the same time. Their eight children, who were sleeping, were carried out to safety.

Mr. Combes got word to the Central station by telephone and the auto pump and pumper chief with the Main street auto responded. When they arrived dense volumes of heavy black smoke were pouring through a sidewalk rating leading into the cellar.

It appeared as if a serious fire was raging in the cellar and Box 223, opposite the postoffice, was pulled in, calling out the West Side company and the aerial truck from the Central station.

Several lines of hose were laid, one line being directed through the grate leading into the cellar. The hose and another was put into play from the rear of the building into the cellar. No flames could be seen, however, and the aerial truck from the Central station.

The smoke found its way into the Clegg jewelry store in considerable quantities but beyond this there was no damage to the jewelry stock. The record was sounded at 1:35 o'clock.
